

MURALES COLLECTION

MURO STRACCIATO

MURALES

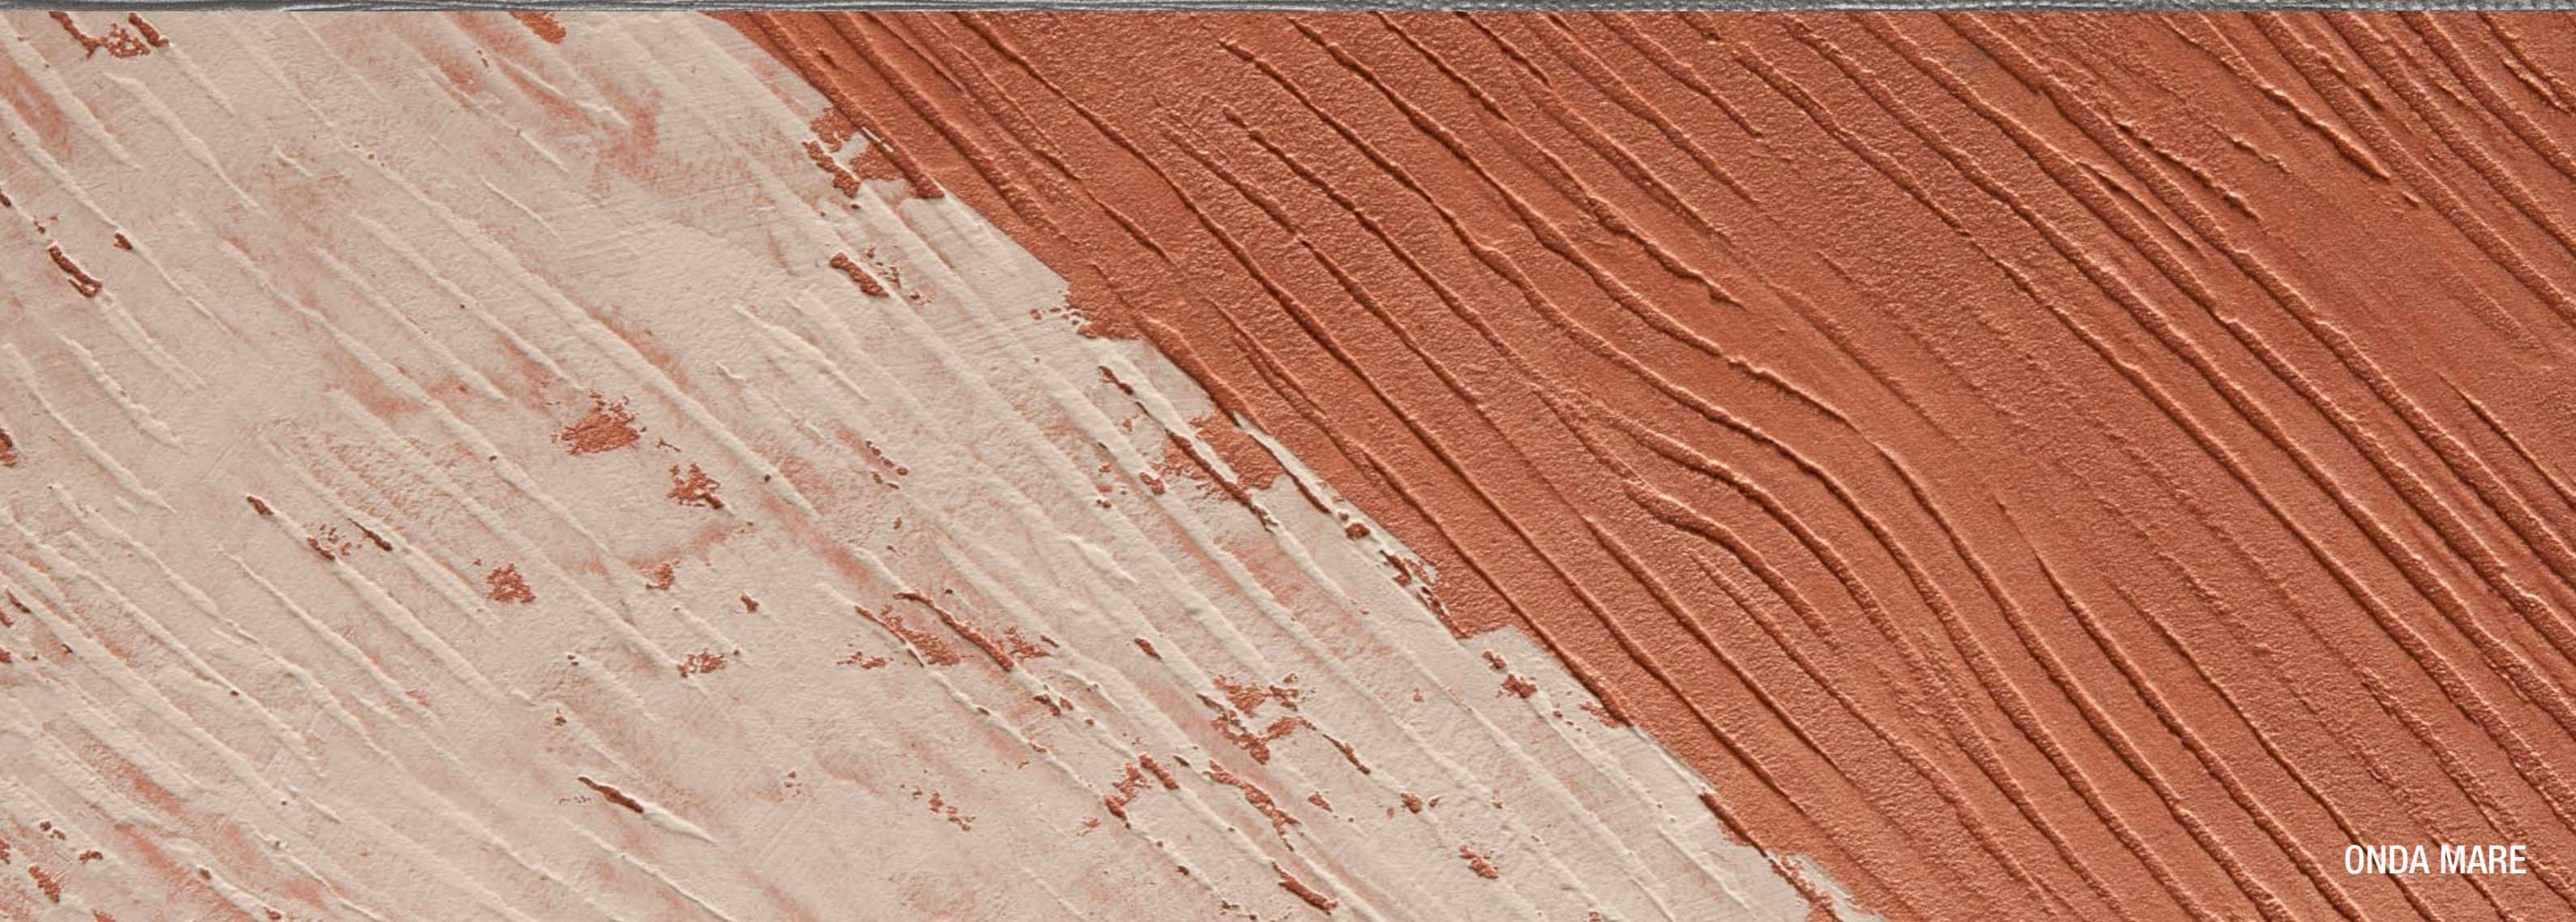

MURALES is an exclusive, personal and unique collection.

Inspired by frames and glimpses we see in everyday life, turning in the degradation of suburbs and urban centers of towns and cities.

The effect and the material aspect, inspired by this collection give always a new perception, different and vibrant, which depicts the real originality of its execution.

The cement effect and other finishes may have several solutions that go beyond the photos, to meet customer demand.
